EDUCATION

RICE UNIVERSITY, Jones Graduate School of Business — Jul 2021 – May 2027 (expected)

PhD Candidate in Finance

· Committee: Alex Butler (Chair), Alan Crane, Gustavo Grullon, James Weston, Matthew Thirkettle (Outside Member)

NEW YORK UNIVERSITY, Leonard N. Stern School of Business — May 2021

Master of Business Administration, Specializations in Quantitative Finance & Economics

GEORGETOWN UNIVERSITY, McDonough School of Business — Dec 2014

Bachelor of Science in Business Administration, Finance and English

· Magna Cum Laude

WORKING PAPERS

The Boundaries of the Farm and the Death of Small Banks (Job Market Paper) (PDF) (SSRN)

· **Abstract:** How does firm consolidation affect the structure of banking markets? I show that exogenous changes in subsidy payments nearly double farm concentration without increasing deposits, land values, investment, or production. As farms consolidate, large banks capture a greater share of local deposits and expand their branch networks, while small bank mergers increase. Local banking markets become more concentrated, and the resulting decline in competition spills over into consumer credit markets, where households earn less on deposits and face higher borrowing costs. These findings show how consolidation in the real economy can alter banking markets and credit prices.

· **Presentations:** Rice University (2025); Financial Research Association (FRA) Annual Meeting (2025); Midwest Finance Association (MFA) Annual Meeting (2026); BIS-CEPR-Gerzensee-SFI Conference on Financial Intermediation (Poster) (2026); Texas Finance Job Candidate Conference (2026); FDIC Annual Bank Research Conference (Poster) (2026); Northern Finance Association (NFA) Annual Meeting (2026); Community Banking Research Conference (Pre-session) (2026); Finance, Organizations, and Markets Conference (2026); Johns Hopkins Carey Finance Conference (PhD session) (2026)

· **Awards:** Best PhD Paper at NFA Annual Meeting; Michael J. Barclay Young Scholar

· Invited to submit to the *Journal of Financial Economics* under FRA dual-submission

Nepo Credit: The Effect of Borrowed Credit Histories – with Alex Butler, Alan Crane, and Erik Mayer (PDF) (SSRN)

· **Abstract:** The intergenerational transfer of credit histories through authorized user (AU) status affects credit outcomes. About 16% of young adults benefit from AU status each year, gaining credit histories that pre-date their own financial activity. Using variation in the age at which individuals are added as AUs, we identify substantial gains to AU status: credit scores rise by 22-42 points, and access to credit cards and credit in broader markets increases. However, AU borrowers are more likely to default than others with similar credit scores, suggesting that AU histories inflate scores and reinforce inequality in credit access.

· **Presentations:** Rice University (2025); University of Wisconsin-Madison (2025)**; University of North Texas (2025)**; University of Minnesota Finance Department Junior Conference (2025)**; Auburn University (2026)**; Eastern Finance Association (EFA) Annual Meeting (2026)**; Western Finance Association (WFA) Annual Meeting (2026); Montana Financial Decision-Making Conference (2026); FMA Annual Meeting (2026)**

· **Awards:** Best Paper Award in Financial Markets and Institutions at FMA Annual Meeting

· **Revise & Resubmit at *Management Science***

The Spillover Effects of Federal Aid Programs: Evidence from Flood Insurance and Municipal Borrowing (PDF) (SSRN)

· **Abstract:** This paper examines how federal programs targeting individuals can generate economic spillovers for local governments. I study the spillover effects of social welfare programs on municipal bond markets, using local variation in the rollout of a federal program providing subsidized flood insurance to households. I find that municipalities with broader program access experience smaller declines in property tax revenue following floods. I then show that areas with greater access also face lower financing costs. The effects are most pronounced in high-risk and high-income counties. Overall, these results show how federal subsidies can produce positive local externalities, enhancing fiscal stability.

· **Presentations:** Rice University (2023); Eastern Finance Association (EFA) Annual Meeting (2024); FMA Annual Meeting (2025)

Black Belt Banking: Emancipation and the Geography of Southern Credit – with Alex Butler (PDF) (SSRN)

· **Abstract:** Antebellum Southern credit relied on enslaved people as collateral, an arrangement emancipation ended in 1865. We show that emancipation reversed financial development for a century and a half. In a county panel of Confederate states from 1820 to 2024, a one-standard-deviation higher 1860 slave share predicts 64 percent more banks before emancipation but 51 percent fewer afterward, and 31 percent fewer still today. Regulations lowering bank capital requirements increased bank entry, but branching deregulation did not eliminate the gap. A modern-day movers design shows that living in these counties changes credit access, but not credit risk.

· **Presentations:** Rice University (2026)**; Kent State University (2026)**

WORKS IN PROGRESS

Rise of Market Power or Superstar Firms: Evidence from COVID – with Gustavo Grullon

Liquidity Regulation and Monetary Policy Transmission: The Role of Product Heterogeneity – with Nicole Fleskes

AWARDS & RECOGNITIONS

***The Boundaries of the Farm and the Death of Small Banks* (Job Market Paper)**

· Best PhD Paper Award at NFA Annual Meeting 2026

· Carey Finance Conference Travel Grant 2026

· NFA Annual Meeting PhD Student Travel Grant 2026

· Community Banking Research Conference Emerging Scholar 2026

· BIS-CEPR-Gerzensee-SFI PhD Student Travel Grant 2026

· FRA Annual Meeting PhD Student Travel Grant 2025

· Michael J. Barclay Young Scholar Award 2025

***Nepo Credit: The Effect of Borrowed Credit Histories* with Alex Butler, Alan Crane, and Erik Mayer**

· Best Paper Award in Financial Markets and Institutions at FMA Annual Meeting 2026

· Montana Financial Decision-Making Travel Grant 2026

RICE UNIVERSITY

· Doctoral Fellowship 2021 – Present

GOLDMAN SACHS

· Accelerated Vice President Promotion 2020

· Accelerated Associate Promotion 2017

TEACHING EXPERIENCE

INSTRUCTOR

Using AI in Financial Management (Undergraduate students) — 2026, 4 sessions
· Developed and taught four supplemental lectures for Prof. Alex Butler's course.

Financial Management (Undergraduate students) — 2024

TEACHING ASSISTANT

Financial Management (Undergraduate students) — 2026, 2023
Instructor: Prof. Alex Butler

Mergers and Acquisitions (Full-time and Weekend MBA students) — 2025
Instructor: Prof. Gustavo Grullon

Corporate Rivalry (Full-time MBA students) — 2024
Instructor: Prof. Bruce Carlin

PROFESSIONAL SERVICE

CONFERENCE SESSION CHAIRING

Credit Supply Effects Session, FMA Annual Meeting — 2025

CONFERENCE DISCUSSIONS

Monetary Policy Transmission through Housing Duration: Evidence from Reaching-for-Income Investors by Gen Li, FMA Annual Meeting — 2025

Roe v. Rates: Reproductive Healthcare and Public Financing Costs by Runjing Lu and Zihan Ye, EFA Annual Meeting — 2024

OTHER SERVICE

Rice University Finance Ph.D. Student Seminar, Series Coordinator — 2024 – 2025

INDUSTRY EXPERIENCE

WORLD BANK — Washington, DC
Short-Term Consultant, Development Research Group — Jan 2023 – Jun 2023
· Research on financial inclusion and digital payments using the Global Findex Database.

GOLDMAN SACHS — New York, NY
Analyst to Vice President, Securities and Engineering Divisions — Feb 2015 – Jul 2021
· Expert in OTC derivatives policy; specialized in launching new bespoke equity OTC products.
